

Utilice los bloques para determinar las cantidades totales.

7 centenas = 70 decenas = 700 decenas

_____ centenas = _____ decenas = _____ decenas

_____ centenas = _____ decenas = _____ decenas

_____ centenas = _____ decenas = _____ decenas

_____ centenas = _____ decenas = _____ decenas

_____ centenas = _____ decenas = _____ decenas

_____ centenas = _____ decenas = _____ decenas

_____ centenas = _____ decenas = _____ decenas

_____ centenas = _____ decenas = _____ decenas

Respuestas

Ej. 7 70 700

1. _____

2. _____

3. _____

4. _____

5. _____

6. _____

7. _____

8. _____

Utilice los bloques para determinar las cantidades totales.

7 centenas = 70 decenas = 700 decenas

8 centenas = 80 decenas = 800 decenas

2 centenas = 20 decenas = 200 decenas

1 centenas = 10 decenas = 100 decenas

5 centenas = 50 decenas = 500 decenas

3 centenas = 30 decenas = 300 decenas

9 centenas = 90 decenas = 900 decenas

6 centenas = 60 decenas = 600 decenas

4 centenas = 40 decenas = 400 decenas

Respuestas

Ej. 7 70 700

1. 8 80 800

2. 2 20 200

3. 1 10 100

4. 5 50 500

5. 3 30 300

6. 9 90 900

7. 6 60 600

8. 4 40 400
